Dr. Ilham Abdullah Ahmed Bagazi

Team members

Shatha Alghamdi, ID-446000126

Layan Abdullah Alshreef, ID-44610583

Nour Amin Zehrawi, ID-446016977

Layan Abdulrahman Alshreef, ID-446003498

Wareef Basim Almaghamsi, ID-446005374

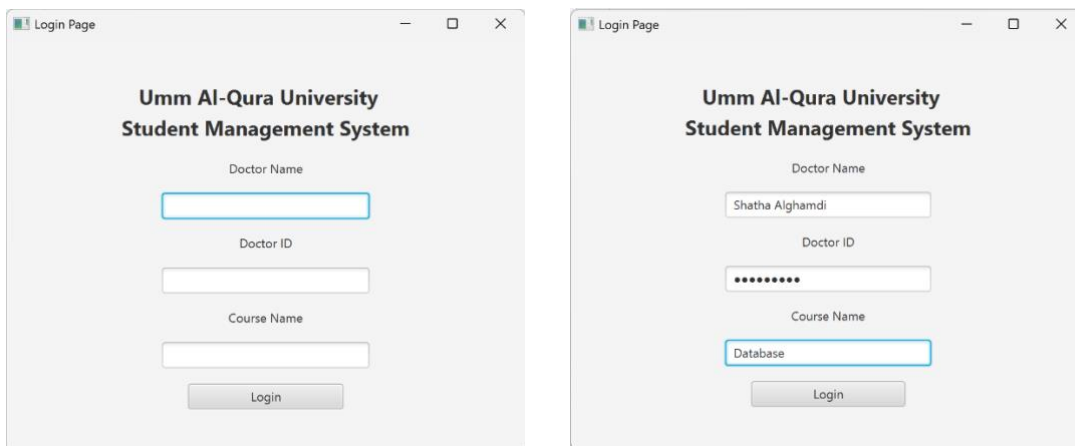

Project Description:

Our project is a Student Management System developed using JavaFX. It allows the doctor to add students, view their information, and record their grades in an easy and organized way through a simple graphical user interface. The system helps organize student data and makes grade management easier within the application.

Project Screens:

1- Login Screen:

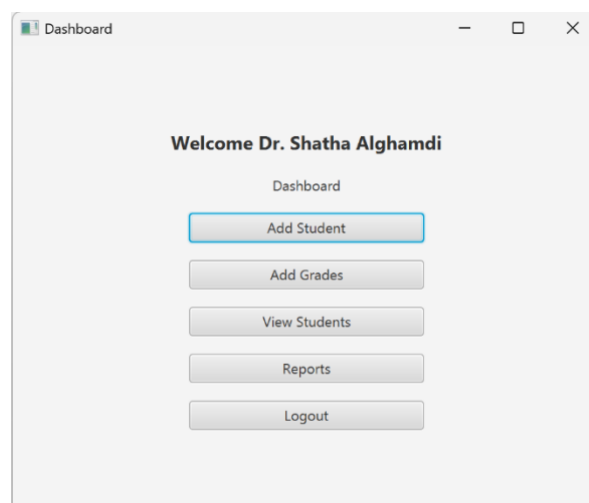

This screen allows the doctor to log in by selecting their name, entering their ID number and course name, then clicking the login button to access the system.

The Login Page window displays the title 'Umm Al-Qura University Student Management System'. It contains three input fields: 'Doctor Name' (with a blue border), 'Doctor ID' (with a white border), and 'Course Name' (with a white border). Below these fields is a 'Login' button. In the second screenshot, the 'Doctor Name' field contains 'Shatha Alghamdi', the 'Doctor ID' field contains '*****', and the 'Course Name' field contains 'Database'. The 'Login' button is highlighted with a blue border.

2- Dashboard Screen:

The dashboard screen appears after logging in. It displays a welcome message with the doctor's name, along with several buttons that allow the doctor to perform different operations within the system.

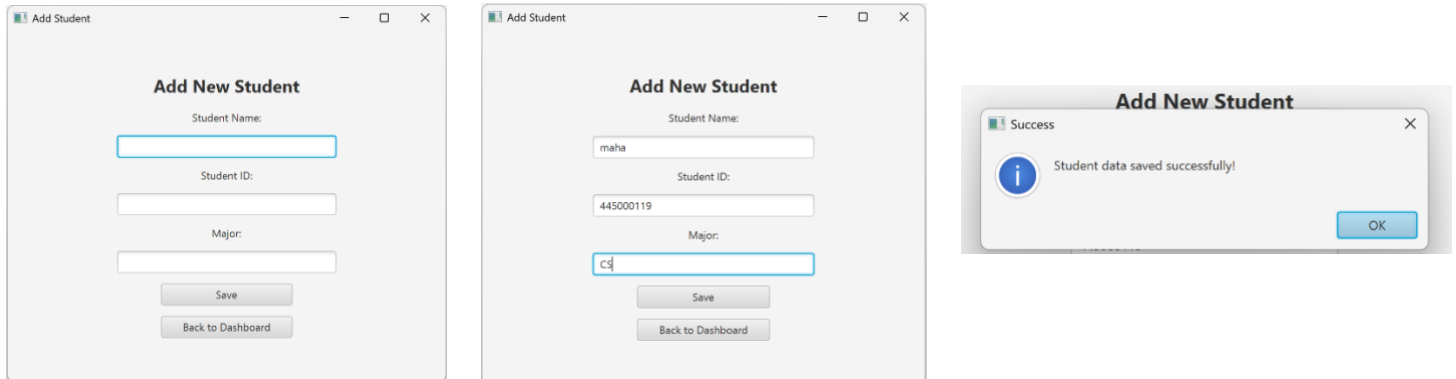

The Dashboard window displays the title 'Dashboard'. It shows a welcome message 'Welcome Dr. Shatha Alghamdi'. Below the message, there is a list of buttons: 'Add Student' (highlighted with a blue border), 'Add Grades', 'View Students', 'Reports', and 'Logout'.

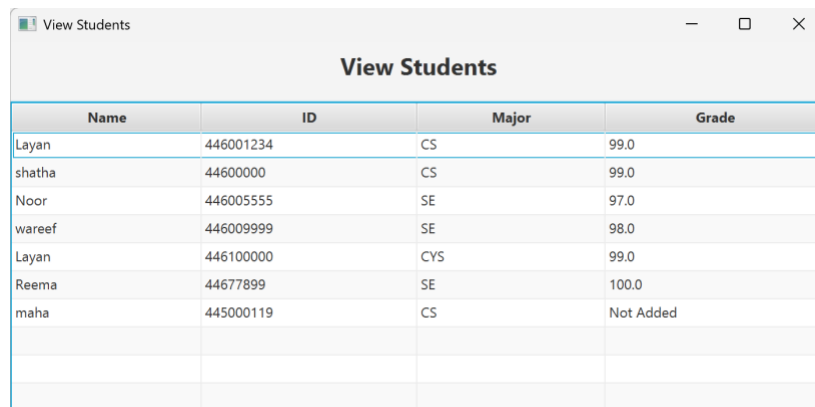

3- Add Students Screen:

This screen enables the doctor to add a new student by entering the student's name, ID number, and major. After adding the student, a confirmation message appears to indicate that the process was completed successfully.

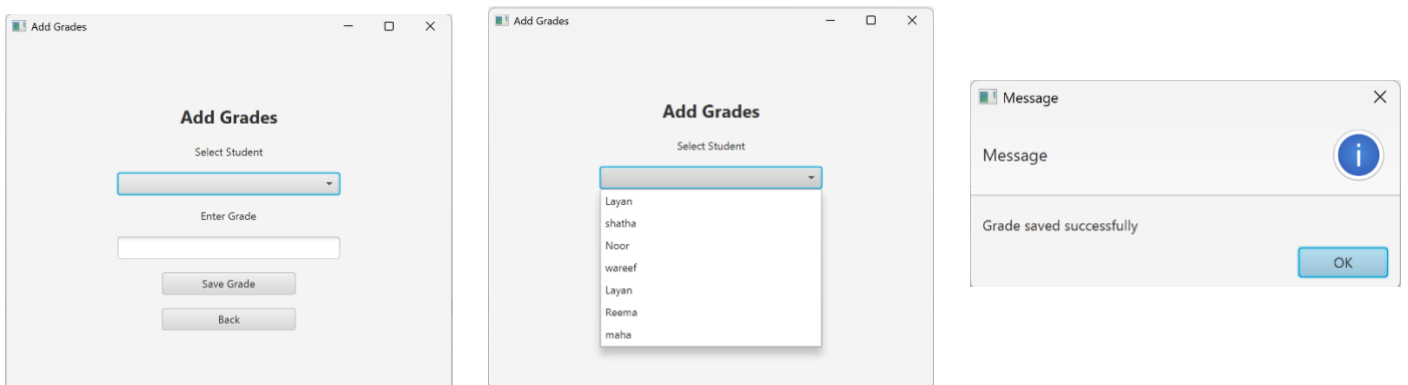

The student is then added to the student list, and their grade status appears as “Grade Not Added Yet”.

Name	ID	Major	Grade
Layan	446001234	CS	99.0
shatha	44600000	CS	99.0
Noor	446005555	SE	97.0
wareef	446009999	SE	98.0
Layan	446100000	CYS	99.0
Reema	44677899	SE	100.0
maha	445000119	CS	Not Added

4- Add Grades Screen:

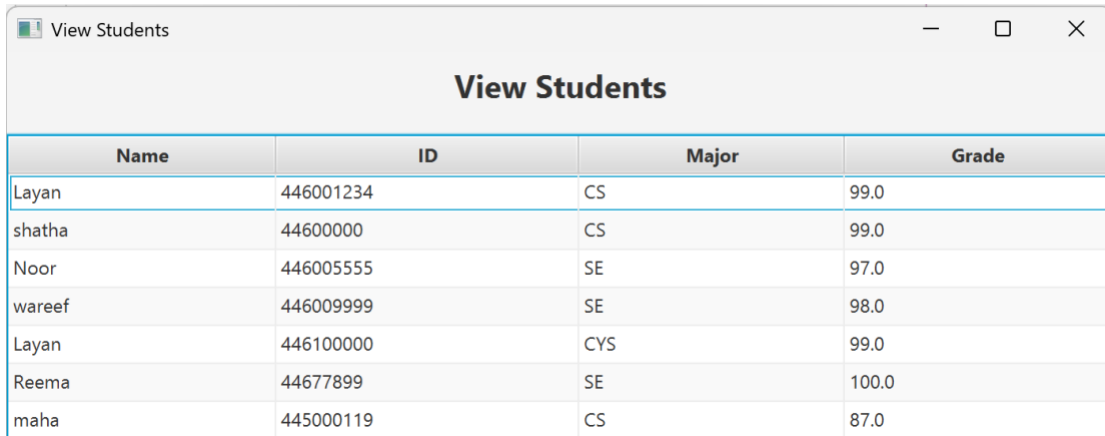

This screen allows the doctor to select a student's name from the list and enter their grade. After the grade is added, a success message appears.

5- View Students Screen:

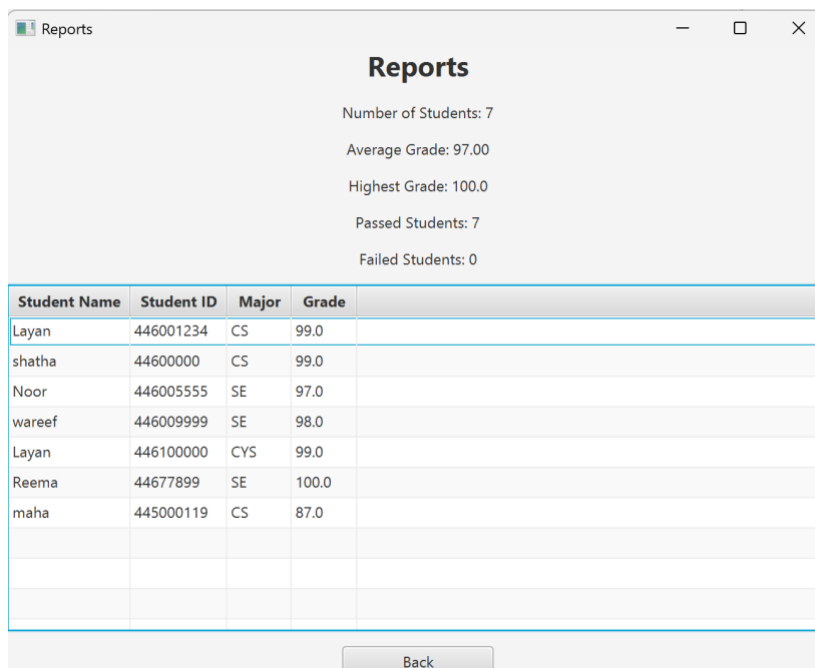

This screen allows the doctor to view the full list of students. It displays each student's name, ID number, major, and grade, whether the grade has been recorded or not.

Name	ID	Major	Grade
Layan	446001234	CS	99.0
shatha	44600000	CS	99.0
Noor	446005555	SE	97.0
wareef	446009999	SE	98.0
Layan	446100000	CYS	99.0
Reema	44677899	SE	100.0
maha	445000119	CS	87.0

6- Report Screen:

This screen displays a report that includes the total number of students, the average of their grades, the highest grade, the number of passed students, and the number of failed students. It also displays a table containing the complete information of all students.

Student Name	Student ID	Major	Grade
Layan	446001234	CS	99.0
shatha	44600000	CS	99.0
Noor	446005555	SE	97.0
wareef	446009999	SE	98.0
Layan	446100000	CYS	99.0
Reema	44677899	SE	100.0
maha	445000119	CS	87.0
